ART CREATIONS ARE ABOUT SENTIMENT

The editor's point of view

Creations always derive from pure sentiments, as expression of life and emotions. What's life, then? **Life is food and beauty.**

Where does this connection come from? In the fact that, without food and beauty, life could never exist. Human being survives for food, and live trying to get better and better things, until their status of perfection. Art is unquestionably the highest expression of perfection, being mixed with sentiments, shapes, materials and feelings, all essential aspects for our survival.

“I am very proud of the success achieved. I am sure the quality of a business plan which also includes the enhancement of capacity and skills of employees in force at the shipyards and linked industries has been recognized. The operation is part of the strategy of development of Mondomarine, which aims to leadership in the field of high-end yachts.”

Alessandro Falciai, Chairman and Owner of Mondomarine

Mondomarine takes over Cantieri di Pisa

MONDOMARINE announced the acquisition of the historical brand of the Italian yachting industry. The prestigious yard, specialized in construction of high-end yachts, won the running to take over Cantieri di Pisa, whose history begins in Limite sull'Arno in 1945. The new yard, which still dominates on the Darsena Pisana, is built in 1956 with a view to designing and building even larger boats.

AVIATION

On display at EBACE 2015

Gulfstream engineers partnered with a customer advisory board to envision an aircraft that would set a new standard in business travel. Working from that input, engineers rejected the status quo with a clean-sheet design. They pushed for more performance in every aspect. With the G650's long, unfettered wing, they redefined how air flows over an aircraft wing, creating a highly efficient airfoil that delivers speed and an incredibly smooth ride.

FONDAZIONE PRADA

The new permanent Milan Venue

The new Milan venue of Fondazione Prada opened to the public on Saturday 9 May 2015. In conjunction with the Milan spaces, the Fondazione venetian outpost will continue to operate in the 18th century palazzo Ca' Corner della Regina, where a new exhibition launched on the same date.

The architectural project developed by OMA, led by Rem Koolhaas, expands the repertoire of spatial typologies in which art can be exhibited and shared with the public. Characterized by an articulated architectural configuration which combines seven existing buildings with three new structures (Podium, Cinema and Torre), the new venue is the result of the transformation of a distillery dating back to the 1910's.
