

## MAIN CHARACTERISTICS

|                        |             |   |
|------------------------|-------------|---|
| Hull length            | 30.48       | m |
| Hull beam              | 7.00        | m |
| Waterline length       | 28.86       | m |
| Draft                  | 4.50 / 6.20 | m |
| Lightship displacement | 48.450      | t |
| Full load displacement | t.b.a       | t |

|                         |    |       |   |
|-------------------------|----|-------|---|
| Rig                     | I  | 41.03 | m |
| dimensions              | J  | 12.00 | m |
|                         | P  | 43.00 | m |
|                         | E  | 14.00 | m |
|                         | LP | 12.75 | m |
|                         |    |       |   |
| Mast height above water |    | 47.88 | m |

|                    |           |      |    |
|--------------------|-----------|------|----|
| Sail areas         | As. Spin. | 945  | m2 |
|                    | Code 0    | 412  | m2 |
|                    | Blade     | 264  | m2 |
|                    | Staysail  | 152  | m2 |
|                    | Main      | 390  | m2 |
| Upwind sail area   |           | 654  | m2 |
| Downwind sail area |           | 1335 | m2 |
